

# What Trenz can do for you?

**Development & Manufacturing**  
of FPGA & SoC modules

## Full Service

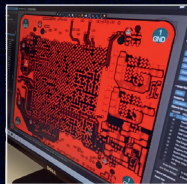

design-in support through to turnkey solutions

- Hard- & Software
- Prototyping
- Series production

## Customization

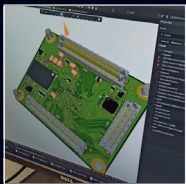

Custom solutions & rapid prototyping

FPGA /  
SoC Design

FPGA / HDL Design & Synthesis

Hardware  
Development

Schematic Capture & PCB Layout

Software  
Development

Soft- & Firmware Development

## Facts & Figures

Location	Employees	Region of focus
<b>Germany</b>	<b>&gt; 100</b>	<b>EMEA, NA</b>
Founded	Total Modules	Vertical Markets
<b>2002</b>	<b>&gt; 600k</b>	<b>ALL</b>
Unique Modules	 	
<b>500+</b>

Catalogue

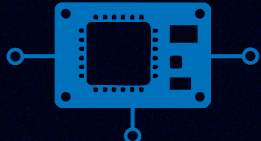

# Inhouse Production

All modules are developed, manufactured & tested in Germany.

Inhouse  
Production & Testing

Traceability &  
Test concepts

Short lead times &  
high availability

9001:2015

ISO 14001

Quality management

# Assembly Variants

Scalability

Cost optimization

No NRE

High flexibility

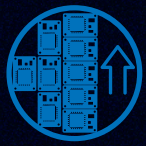

Be future-proof

# Customization & Chipdown

Assembly of customer-  
specific modules/boards

Adaptation to quantities

Chipdown  
from scratch
